

Second Annual ASA Outstanding Shotcrete Project Awards

The American Shotcrete Association (ASA) is proud to announce that the Second Annual Outstanding Shotcrete Projects Awards program has now been completed and winners in all six categories have been selected. The project awards program was originally developed to recognize outstanding shotcrete projects in five major categories: Architectural, Infrastructure, Pool & Spa, Repair & Rehabilitation, and Underground. This year, a new “International” category was established to recognize an outstanding project completed outside of North America.

All award winners, including the winner of the Outstanding International Project award, will be acknowledged on the ASA website for the upcoming year and formally recognized during the 2007 ASA Annual Membership Meeting and Second Annual Outstanding Shotcrete Project Awards Banquet. The banquet will be held on January 22, 2007, at the Monte Carlo Resort & Casino in Las Vegas, NV. Details on how to register for this banquet can be found within this issue or by visiting ASA’s website at www.shotcrete.org. Register now! Don’t miss the opportunity to network with your colleagues and congratulate the 2006 winners of the Second Annual ASA Outstanding Shotcrete Project Awards.
